Mohammad Faisal Kureshi

FULL STACK DEVELOPER

Profile

My name is Faisal Kureshi, and I am currently pursuing a Bachelor of Computer Applications (BCA) in Semester 6 at KK Shastri College. I have completed an internship at Way To Web as a Full Stack Developer. I possess strong knowledge of web development technologies, including HTML, CSS, JavaScript, PHP, and WordPress. I am eager to gain more opportunities to further develop my skills and contribute to a company's success while advancing my career.

Employment History

FUII Stack Developer, Intern

JANUARY 2024

I completed an internship at **Way To Web** as a Full Stack Developer Intern-, where I gained hands-on experience in both front-end and back-end development. During my internship, I worked on real-world projects involving technologies such as **HTML, CSS, JavaScript, PHP**, and **WordPress**. I was responsible for developing responsive web interfaces, integrating back-end services, and ensuring smooth functionality across different platforms. This experience enhanced my technical skills, problem-solving abilities, and understanding of full stack development.

Education

Bachelor of Computer Applications, Kk Shastri BCA College Khokhra

JANUARY 2022 — JANUARY 2025

I am currently pursuing a **Bachelor of Computer Applications (BCA)** in **Semester 5** at **KK Shastri College**. Throughout my studies, I have developed a solid foundation in programming, web development, and software engineering. I am continuously enhancing my technical skills and working on academic projects to gain practical experience in the field of computer science.

Projects

Login and Sign-Up Form using HTML & CSS

I created a fully functional **Login and Sign-Up form** using **HTML** and **CSS** with a focus on responsive design and user experience. The form includes fields for username, email, and password, along with basic client-side validation. The UI is designed to be clean and intuitive, ensuring easy navigation for users. Additionally, I implemented modern CSS styling techniques, including flexbox for layout, hover effects for interactive elements, and media queries for mobile responsiveness.

This project helped me gain practical experience in front-end development, improved my understanding of form handling, and strengthened my skills in designing responsive and aesthetically appealing web pages.
